

TL4371

Polyurethane Clear Sealer

DESCRIPTION & USES Polyurethane two-component clear sealer for use on veneer and solid timbers such as furniture, kitchens and doors (interior). Properties include: very good covering power and build, very good sandability, fast curing, easy application on vertical surfaces and an ideal sealer for use on chairs and wall panelling. TL4371 uses 'low yellowing' hardeners designed specifically to reduce the yellowing of the coating itself. For protection against colour change of the timber substrate a UV prohibitor* can be added to TL4371 before application.

Recommended Application:

For use under topcoats TM4060 & TC4259. Furniture, joinery,shop-fitting, wardrobe and kitchen and vanity doors/benchtops, commercial interiors.

DRY FILM PROPERTIES

Colour: Clear

Gloss: N/A

WET PROPERTIES

Solid content: 45% (approx)

Viscosity in drum: 30-36 seconds Ford Cup 4 @ 20°C (approx)

Shelf life: 12 Months in sealed containers

APPLICATION

Method: Spraying conventional

Mixing Ratio: 2 Parts TL4371 to 1 Part TV4271 hardener

Thinning: THIN4230 at 20%-30% of part A
(Depending on type of equipment used)
In hot conditions use THIN4444/THIN4000 or NT573 can be added

Drying: Sand to re-coat: 3-4 hours at 20°C or 70-80 minutes at 50°C
Stacking: 4-5 hours at 20°C or 70-80 minutes at 50°C

Pot Life: 3-4 hours

Application weight: 140 - 180 g/m2

NOTES

* UV Prohibitor should also be added to the topcoat (e.g. TM4060)
